Socio-Economic and Environmental Sustainability (ReSEES)
Athens University of Economics and Business

Dear Professor Koundouri, dear Phoebe,

It is with my pleasure to cordially invite you to the prestigious **Delphi Economic Forum IV** entitled **"Inclusive Growth"** on behalf of the Organizing Committee. The Forum will take place in historic Delphi, Greece, a UNESCO world heritage site, from **February 28th to March 3rd, 2019**.

Please note that the Forum creates a platform for dialogue and communication among prominent personalities from the world of governance, academia and business and has emerged as one of the most important Fora in South-East Europe. During its last iteration in March 2018, more than 400 speakers addressed 55 topics and 2.100 participants attended the Forum. Please find attached a selection of prominent past speakers for your perusal (for more information please visit <https://youtu.be/VH3k7CsNn1c>).

The Delphi Economic Forum, a nonprofit, nonpartisan organization, is convened annually under the auspices of H.E. the President of the Hellenic Republic, Mr. Prokopios Pavlopoulos and assembles distinguished personalities and leaders from around the world to deepen understanding on the major issues impacting the global community, the EU and wider Mediterranean Region. In next year's Forum, the effect of climate change and its consequences to the Economy and to the Environment will form a separate session which I have been asked to coordinate for the duration of one and a half hours on March 2nd, 2019.

It is with great honor, that we invite you to participate as a Speaker at the Delphi Forum IV, 2019. Your expertise on Climate Change and Economics would add immeasurably to the quality of the discussions and the outcomes of the forum. All your travel, transportation and lodging expenses will be covered by the Delphi Economic Forum. The invitation is extended also to your spouse or accompanying person.

I very much hope that you will accept this invitation and we are looking forward to welcoming you in Delphi.

Thank you for your kind attention.

Sincerely,

Christos Zerefos
