CFA Level I courses @ Altium Training

The only course in Greece that:

- Offers the right combination of teaching and exam preparation sessions, thus achieving an effective and efficient learning process. See courses structure below
- Focuses on the attributes that will help candidates prepare best and succeed in their exams
- Delivered by tutors combining both professional expertise and teaching experience in the subject matter
- Supplemented by continuous support outside the classroom through **the Altium Training Online Learning Management System (LMS)**

CFA Level I course structure

Orientation session: Wednesday, 11 November 2015 at 18:00

Familiarise the students with the course and to help them plan their studying in the most effective and efficient manner.

Teaching & Question practice sessions:

The course is designed to maximise exam success and also act as a guide to students through their studies. Therefore each syllabus area is delivered through a two-phase type of course including: Lectures session and Question practice sessions. The Question practice sessions consists of *a number of indicative exam type questions*, which students try on their own, and then they are analysed and debriefed in class with the tutor. This session is held after allowing for some study days from the teaching session.

Mock exams:

Structured as a typical real exam day.

Revision phase:

Aiming to recap the syllabus areas, help students with questions.

The Altium Training Online Learning Management System (LMS):

Throughout the course students will be given access to the Altium Training Online Learning Management System (LMS) enabling them to have online access to certain material and also exchange views, post questions and interact with other students and the lecturer. Also, communication throughout the course will be directed through the LMS serving as a single point of reference for students, lecturers and the secretariat.

Level I Syllabus topics:

Ethical & Professional Standards

Investment Tools

- Corporate Finance
- Economics
- Financial Reporting and Analysis
- Quantitative Methods
