(2) LEARNING OUTCOMES

Learning outcomes
• Understand foundational concepts of international law through sports-related examples. • Learn methods for interpreting legal provisions in sports. • Examine the institutional and regulatory frameworks governing sports nationally and internationally. • Explore legal and regulatory aspects of doping in sports. • Understand mechanisms for resolving sports disputes, including international adjudication. • Analyze the supranational aspects of global sports law and the limits of autonomy and independence. • Study the process of creating and implementing rules in sports, from enactment to practical application.
General Competences
• Ability to work in an interdisciplinary environment. • Adaptability to new situations. • Promotion of independent, creative, and analytical thinking

(3) SYLLABUS

This course introduces the fundamental concepts of international law as shaped through cases from international competitive and sporting activities. It covers the basic methods and procedures for interpreting legal provisions, the institutional framework of sports, the issue of doping, methods for resolving sports disputes, the supranational nature of global sports law, and the limits of autonomy and independence. The goal of the course is to understand how sports rules operate, from their creation to their practical implementation.
